WORK EXPERIENCE

 **NIZA GLOBAL – VILNIUS, LITHUANIA**

SOFTWARE DEVELOPER – 10/01/2024 – CURRENT

Web & Mobile Developer | NIZA GLOBAL

At NIZA GLOBAL, I focus on developing and maintaining secure, high-performance web and mobile applications in the fintech and crypto space. My core responsibilities include:

- **Payment Processing & KYC Verification (Sumsu):** Designing and implementing secure payment workflows with integrated KYC processes to ensure compliance, privacy, and seamless user onboarding.
- **Security & Privacy:** Leveraging cryptographic techniques to maintain data integrity, protect user privacy, and ensure transaction security.
- **Cross-Functional Collaboration:** Working closely with product, design, and backend teams to deliver new features, optimize workflows, and maintain system reliability and scalability.
- **Performance Optimization:** Continuously monitoring and refining system performance for a smooth user experience.

React Native Mobile Development:

- Developed and maintained the company's mobile applications using React Native.
- Built and enhanced **core features** including:
 - **Trading & Exchange Modules**
 - **Launchpad & Airdrop Integrations**
 - **UI Refactoring for Modern, Consistent Design**
 - **Light/Dark Mode Support**
 - **Internationalization (i18n)** for multilingual support across web and mobile platforms
 - **Payment Processing & KYC Verification (Sumsu)**
 - **Performance Optimization**

 **QUEEN 3 PRODUCTIONS – NEW YORK, UNITED STATES**

SOFTWARE DEVELOPER | QUEEN 3 PRODUCTIONS – 05/10/2023 – CURRENT

Software developer | Queen 3 Productions

As a Software Developer at Queen 3 Productions, I was responsible for building and maintaining both the **main platform** and its **admin dashboard**. I worked on the complete development lifecycle, from architecture to deployment, with a focus on feature-rich, scalable, and high-performance applications.

Key Contributions:

- **Full Application Development:** Designed and developed the entire **user-facing application** and **admin portal** using modern web technologies.
- **AI Integration:** Integrated advanced **AI-powered chat systems** to enhance user engagement and interactivity.
- **Video Streaming & Content Delivery:** Implemented **video streaming** capabilities and purchasing mechanisms for digital content (e.g., videos, images).
- **User Features:** Built **profile management**, content upload/edit functionality, and **third-party authentication** integrations.
- **Payment Processing & Wallets:** Developed secure **payment flows** for purchasing content, including internal **wallet management** for seamless transactions.
- **Admin Dashboard:** Created a full-featured **admin panel** for managing platform content, users, transactions, and system settings.
- **UI/UX Development:** Led the **UI development** to ensure a consistent, modern, and user-friendly interface across devices.

- **Security & Compliance:** Ensured secure handling of user data, authentication, and content delivery, following best practices.
- **Collaboration & Delivery:** Worked closely with stakeholders to define requirements, deliver features on time, and support platform growth.

🏢 **MARINE DATA CLOUD LTD** – LONDON, UNITED KINGDOM

WEB DEVELOPER – 07/07/2022 – 01/02/2024

Web & Mobile Developer | Marine Data Cloud Ltd

At Marine Data Cloud Ltd, I worked on the design, development, and maintenance of web and mobile applications, helping deliver data-driven solutions for the maritime industry. My key responsibilities included:

Core Responsibilities:

- **Clean & Efficient Coding:** Writing high-quality, maintainable code for web and mobile platforms using **HTML, CSS, JavaScript (React, Next.js, React Native)**.
- **Front-End Development:** Designing and implementing responsive **user interfaces (UI)** and **user experiences (UX)** to provide seamless functionality across web and mobile devices.
- **Back-End Development:** Developing server-side logic, REST APIs, and database structures to support complex features and workflows (Strapi).
- **Testing & Debugging:** Conducting in-depth testing to ensure compatibility, reliability, and optimal performance across browsers and devices.
- **Cross-Team Collaboration:** Working closely with designers, developers, and project stakeholders to turn ideas into fully functional digital products.
- **Version Control & Code Management:** Using **Git** (Bitbucket) for code versioning and team collaboration.
- **Continuous Learning:** Staying updated with the latest industry trends, frameworks, and tools to improve code quality and performance.
- **Security Best Practices:** Implementing secure development practices to safeguard applications from potential threats such as **SQL injection** and **cross-site scripting (XSS)**.
- **Performance Optimization:** Improving application speed, responsiveness, and ensuring SEO best practices are followed for web projects.
- **Documentation:** Writing clear, structured documentation for codebases, APIs, and project specifications.
- **Deployment & Hosting:** Managing deployment processes, configuring hosting environments, and ensuring production stability.
- **Maintenance & Updates:** Regularly updating applications to keep them secure, performant, and aligned with evolving business requirements.
- **Client & Stakeholder Communication:** Engaging with clients and project managers to clarify requirements, provide progress updates, and deliver quality outcomes.
- **Problem Solving:** Proactively identifying and resolving technical challenges throughout the development lifecycle.

● EDUCATION AND TRAINING
